

KID PLUS AIRPAD SUSPENSION

No adjustments required -
why the Croozer AirPad suspension system is so innovative:

- ! **Suspension adjustments? Much too time-consuming!**
 - AirPad suspension automatically adapts to the weight of the passengers
 - the suspension does not have to be adjusted to changes in load

- ! **Suspension and shock absorption**
 - effectively irons out rough road surfaces and reacts immediately
 - no bouncing or swaying

- ! **Sylomer®: high-tech material**
 - developed for a service life of more than 50 years
 - 100% dimensionally stable and weatherproof
 - no material changes between -30°C and +70°C (-20°F and +160°F)
 - maintenance-free
 - used for vibration isolation in earthquake zones
